

COLORADO ID PROJECT

at Colorado Legal
Services

Do you need help getting a state ID?

The Colorado ID Project offers assistance to eligible low-income and senior Coloradans who need help gathering the documents needed to get a state ID, including birth certificates. The Project also assists in complex cases such as legal name changes, replacement of lost immigration or citizenship documents, and delayed registrations of birth. There is no charge for services. This project is state-wide.

Applications to get help with an ID issue can be made online at www.applyonlinecls.org or by phone at **303-837-1313**. We can also provide vouchers to assist with the cost of your ID, license, permit, or Colorado birth certificate.
